Man sentenced for the murder of his wife at their Aldwick home

Following the death of 84-year-old Beryl Pyke, her husband, Michael Pyke has been sentenced for her murder.

Emergency services attended their home address in Langley Grove, Aldwick, on 31 May after welfare concerns were raised for Beryl.

Michael Pyke had been reported to police after openly admitting to stabbing and killing his wife.

Officers entered and discovered Beryl inside, sadly deceased and with significant injuries to her head and chest. She was found to have a total of 11 puncture wounds.

Michael Pyke, 79, of Langley Grove, was immediately arrested and a search of the property took place.

He appeared at Brighton Crown Court on 19 October, where he pleaded guilty to the offence. He was then remanded back into custody to await his sentencing.

At Hove Crown Court on Friday, 13 November, Michael Pyke was jailed for 15 years.

UPDATES

Knife Crime Devastates Lives

Sceptre week, which starts on Monday, 16 November, highlights Sussex Police's year-round work to reduce knife crime and serious violence.

Sussex has seen a nearly 20% reduction in knife crime on its streets in the last year (1 October 2025 - 30 September 2026) and targeted action aims to reduce this further.

The week-long national initiative is aimed at reducing knife crime through coordinated police action and engagement with the community.

As part of that engagement, we have recorded a conversation between Charlie Weatherley, a victim of knife crime when he was 15-years-old, and Chris Tomkins, whose son Harrison was killed in 2023.

Crimestoppers

Crimestoppers is speaking up about neighbourhood crimes. Robbery, theft, and burglary harm communities and have a long-lasting impact on their victims. People not only suffer from the loss of their possessions, the invasion of privacy and violation of personal space, but some may experience emotional distress or be left with physical injuries.

Victims of crime may experience long-term adverse effects, from feelings of strong emotions to physical effects including a lack of sleep or falling ill. For some, the trauma can force them to change their ordinary daily routines, out of fear of repeat victimisation.
