# Think!

## Do not park on the pavement

**No excuse**
- your car is putting pedestrians at risk

- **Don't block the pavement** - allow at least a 'double buggy' width for people to use it safely.

- **Consider people who are blind, partially sighted, elderly, infirm, mobility scooters users and adults with prams** - they shouldn't need to step into the road because you've parked selfishly.

- **Park better next time** - in a safe and legal manner and consider others when leaving your vehicle.

- **Pavements are for people** - help keep pedestrians safe or risk prosecution and your vehicle being towed away.
