What matters to you

We have listened to you and the concerns you raised and will prioritise the following,

- **Priority 1 - What you have said:**

You have told us that anti-social behaviour (ASB) is a concern in your community, particularly involving the use of quad bikes and groups of rowdy youths gathering in parks and recreational areas.

Action taken

In response, we continue to work closely with partner agencies including Charnwood Borough Council (CBC), who are liaising with city council counterparts and the neighbouring NE11 Beat Team to address ongoing issues related to illegal bike use and ASB in Thorpebury in the Limes. Joint enforcement options and long-term preventative measures are being explored to deter illegal vehicle access. Patrols at the location have continued, resulting in the seizure of a motorbike. Submitted CCTV footage is being reviewed with the intention of issuing Section 59 warnings or vehicle seizures where appropriate. Enquiries are ongoing to identify the ownership of land being used, with a view to issuing a Community Protection Warning (CPW). We are also awaiting a response from developers regarding the feasibility of blocking off paths currently used for illegal access.

- **Priority 2 -**

What you have said:

The community has also stated that speeding and parking issues are a concern at various locations throughout the Charnwood East area.

Action taken

In response, a speed operation was recently carried out on Main Street in South Croxton, with further ad-hoc speed checks continuing at sites identified by the team. Additionally, the team has assisted with road safety incidents, including support at the scene of a broken-down vehicle, helping to ensure the safety of all road users.

- **Priority 3 -**

What you have said:

Retail theft has been identified as a growing concern within the beat, with several stores being repeatedly targeted.

Action taken

In response, officers have taken proactive steps to address the issue, including the collection of CCTV footage to support ongoing investigations and assist in identifying those responsible. Patrols have been increased at key locations, providing a visible and reassuring presence. Officers continue to engage with store staff, holding beat surgeries at retail sites to strengthen partnerships and gather valuable intelligence to help prevent further incidents.

Over the past month, the Charnwood Beat Team, with support from traffic units, has maintained a high-visibility presence at Thurmaston Retail Park in response to concerns around anti-social behaviour. This proactive approach has included regular patrols and, on one occasion, the issuing of a dispersal order to address disruptive activity. We continue to work closely with retail park management and the local authority to develop a sustainable, long-term solution that promotes safety and reassurance for both businesses and visitors to the area.
