info@nottmgreenfest.org.uk

Nottingham Green Festival evolved from the Nottingham Peace Festival, with the aim of education and action around sustainability and the climate crisis. Every year we gather to learn, grow and celebrate together.

Live Music | Knowledge Garden | Family Zone

How we minimise our impact as a festival:

100% vegan • no single-use plastic • waste recycling & composting • no generators • sustainability commitments for stalls • local artists, workshop leaders and traders
