Alcester Police SNTs. Latest Weekly Report. Sunday 1st November 2026

Based at Alcester Police Station, The Safer Neighbourhood team's primary roles are around crime prevention, problem solving both long standing or emerging issues of community concern and community engagement. We are supported at Alcester by colleagues from Patrol teams whose role is to respond to incidents and investigate crimes that occur in the area 24/7. The SNT is supervised by Inspector Rebecca Wrighting who leads on Neighbourhood Policing for Stratford District and Sgt Ebbs who also oversees neighbourhood Policing in the Shipston on Stour area. The Alcester SNT currently consists of Police officers and Police Community Support Officers, and our contact details are shown above.

Hello all.

This is our latest combined weekly report and prompt to see if you have any questions, suggestions or concerns for the Alcester Police Safer Neighbourhood Teams. Thank you to those that have contacted the Teams this week. If you would like to be removed from this local email circulation list, please let me know asap. This report will also be sent out on the Warwickshire Connected alert system.

For operational and privacy reasons not all the incidents that occur on the Alcester area are listed in this report, although they are recorded on police systems. Please remember to report any anti-social behaviour, suspicious activity or crimes to us as soon as possible - this can be done via the 101 and 999 telephone numbers or if not an emergency via our online reporting forms that can be found on our website. If you have any information or cctv footage that may relate to the incidents listed, please contact us.

Incidents of a public interest from the last week: -

ALCESTER

ASB. Gunnings Road. Group of youngsters - 4 males (2 on scooters) and 2 females causing issues in the area. Caller said that they looked intoxicated with alcohol or drugs. The males had face coverings. Around 5.45pm Saturday 31st October. 0307 31/10/2026

Modern Methods: RVR, Digital Desk and Live Chat

Did you know you can report crime to us online using our Rapid Video Response (RVR), Digital Desk and Live Chat services?

RVR allows you to book a video appointment with one of our police officers for incidents that aren't in progress or presenting an immediate danger to safety.

Available between 8am and 10pm each day, you can talk to an officer at a time that suits you, without them needing to visit you in person. You'll receive a link via email or text message and there are various safety measures in place, such as the link redirecting to a non-police website if it's clicked on outside of the allotted time slot.

When you speak to an officer, you'll need to be in a private location, ideally with a strong Wi-Fi connection and not driving or walking around outside. Once connected, you'll be able to give statements and provide links to photos and any other evidence, often resulting in a much quicker process than reporting the crime over the phone.

At the end of the video call, you'll be provided with a crime reference number and given relevant safeguarding advice. Your case will be reviewed by a Sergeant that day and allocated to an investigation team, who will provide you with updates from that point on.

Our Digital Desk handle all the online reports we receive through our website, including emails sent through the 'contact us' option. They can also allocate video appointments with the RVR team and will provide relevant updates and crime numbers as appropriate.

Live chat is also available seven days a week between 1pm and 6pm, where you can talk to one of our call handlers online. It's important that once connected, you stay in the chat – if you leave or try dialling 101 instead, you'll just end up at the back of the queue.

Reporting non-emergencies online is a great option for dealing with things at a convenient time to you and can often result in a much quicker outcome as well, so be sure to consider these options next time you need to speak to us.

Where does my call go?

The Triage Team are made up of four people who make decisions for where all 101 non-emergency calls should go.

The Triage Team only make decisions on the calls after someone has passed through the initial IVR service, which allows callers to press a number to request the team they are after.

Some calls are routed back through to an emergency line for a high-priority response.

Others might need involvement from our partners, for example the local councils, or they might be sent through to the team who is handling an investigation the call is in relation to.

In September 2026, the team of four answered 14,425 calls in total – that's equivalent to about half the population of Stratford-upon-Avon calling in over the course of the month.

Our Triage Team's efforts mean that, when you call 101, you can be sure your request will be going through to the right place.

This newsletter is not intended to record a comprehensive list of every reported crime in the area but includes crimes and incidents that the local community should be aware of. Staying vigilant and working together with the police and your local community keep crime out of your area.

Reporting Nuisance Bikes - Using the online reporting form.

Warwickshire County Council Community Safety Team are members of the "Community Safety Partnership", together with other agencies we work to address crime and safety concerns within your community. Anti-Social Behaviour caused by nuisance bikes is one such area we know accounts for a large proportion of ASB reports.

If bikes are being used in a manner which causes alarm, distress or annoyance, Police can issue notices under Section 59 of the Police Reform Act or seize the bike.

Nuisance bikes, whether it be a Motorbike, E-Bike or Quad Bike are a cause of concern for several reasons; the noise that is created disturbs people in their homes, gardens and community, the riders often have no regard for other people's safety on the public highway or byways, nor do they care about being road legal.

You must explain to us in detail why they are causing alarm, distress or annoyance, this is very important information as the detail is needed for action to be taken using available legislation.

Once you complete a nuisance bike reporting form it will go directly to the Community Safety Team and be dealt with accordingly. The aim of this form is to gather as much information as possible to identify the offender/s involved.

The details of the form will be shared with other members of the Community Safety Partnership where appropriate.

It is vital you include:

- Details of the bikes
- Descriptions of the riders
- Names of those involved.
- Addresses of where the bike/s are stored.

Over time, this information will help build up a picture of the issues within your community and partners can then take more appropriate and focused action. Direct action will only be taken once the rider, and/or address has been identified and enough supporting evidence has been obtained.

This form is only to be used to gather intelligence on offenders. To report incidents of ASB involving nuisance bikes please use 101 or by contacting your Local Authority.
