BIKE SECURITY TIPS

WORKING TO PROMOTE SAFE & SECURE CYCLING!

- Permanently mark your bike using a police preferred product. Register your bike with BikeRegister.com for free.
- Keep your BikeRegister logbook in a safe place.
- Use two good quality Sold Secure (www.soldsecure.com) approved locks to secure your bike, locks should be 10% of the value of the bike being protected.
- Don't leave your bike in isolated places.
- Park safely and considerately; never leave your bike in a place where it will be a danger or obstruction to others - particularly older people, young children, or people with disabilities.
- Always lock your bike when leaving it, even if it's only for a few minutes. Secure your bike to proper stands or robust street furniture.
- Lock your bike through the frame, not the wheels. Secure or remove wheels.
- Remove smaller parts and accessories that can't be secured, especially lights, pumps and quick-release saddles.

Locking your bike

- Lock both wheels and the frame to a bike stand or strong immovable object.
- Lock 'tight' so your bike is hard to manoeuvre when parked.
- Secure your lock so it does not touch the ground.

The above advice will protect your bike against the most common bike theft techniques.

bikeoff

Visit **www.bikeoff.org** for the latest information.

It is always best to use two locks.

Go for different types of lock, for example, a strong D-lock and a sturdy chain lock. This means that a thief will need different tools to break each lock, making theft less likely.

Mae hi bob amser yn syniad da defnyddio dau glo.

Mae hi bob amser yn syniad da defnyddio dau glo. Defnyddiwch ddau wahanol fath o glo, er enghraifft clod 'D' cryf a chlo cadwyn cadarn. Bydd hyn yn golygu y bydd lleidr angen dau wahanol fath o declyn i dorri'r ddau glo a dwyn y beic, sy'n golygu y bydd yn llai tebygol o wneud.
