

# Don't let them pocket it

We are working to make Wolverhampton city centre safer for all.

Please beware of people who get too close or try to distract you. They might be trying to steal your wallet or purse.

Here's some advice to help you stay safe:

- Keep purses and bags closed and secure at all times
- Carry bags in front of you or diagonally across your chest
- Return change or cards to your purse or wallet quickly
- Conceal your wallet in a buttoned or zipped pocket where it's not obvious

**Remember, having a zipped bag doesn't mean you're always safe. Thieves sometimes walk behind victims while unzipping bags. Be aware of your surroundings and always ask for help if you are worried you are being followed.**

Always report suspicious activity to police on 101 or dial 999 in an emergency.

**Working in partnership, making communities safer**
