#RemoveltLockIt

Avoid becoming a victim of vehicle crime by following these simple steps...

- Remove everything of value from the vehicle prior to arriving at your destination - thieves will see you hiding things in the boot, glovebox or door well
- Take items with you where possible
- Wipe off any marks left by your sat nav device
- Where possible, park your vehicle in a well lit area in isolation and with CCTV camera coverage
- Invest in a visible alarm system/security device, including steering and gearstick locks
- Ensure all of your windows and doors are secured and locked before you walk away
- Never leave your keys in the vehicle, even just for a few seconds
- Leave a 'no valuables in this vehicle' sign on display
