Distraction Technique Examples

Standing too close so they distract you or read your PIN as you type it in

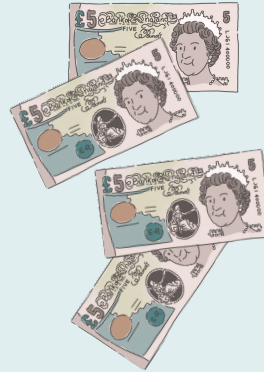

Tapping your shoulder or saying you have something on your clothing to distract you

Scare you or make you jump to distract you

Drop money on the floor to distract you

Offer you help in order to distract you

Distract you by saying that the Cash Machine (ATM) is not working and directing you to another machine

Prevention

Do not allow yourself to be distracted whilst using the cash machine

Look out for anything unusual on or around the Cash Machine (ATM)

Be very aware of your surroundings and of people standing around you

Cover the PIN pad whilst entering your PIN

Secure your cash and card immediately after using the machine

If you are suspicious, or if anything concerns you, cancel your transaction and remove your card

Report to the Police by calling 101 or going online
