## Edmonton Monthly Newsletter Safer Neighbourhoods Teams Monthly Newsletter

### From the Inspector...

Welcome to the third edition of the Edmonton Safer Neighbourhoods Team Monthly Newsletter. This month, we look at new and continuing operations, and discuss the current climate of crime across the wards.

As always, we would love feedback on the newsletter, to make sure it encompasses what our residents and businesses are interested in. If you have feedback, please email it to [P261914@met.police.uk](mailto:P261914@met.police.uk).

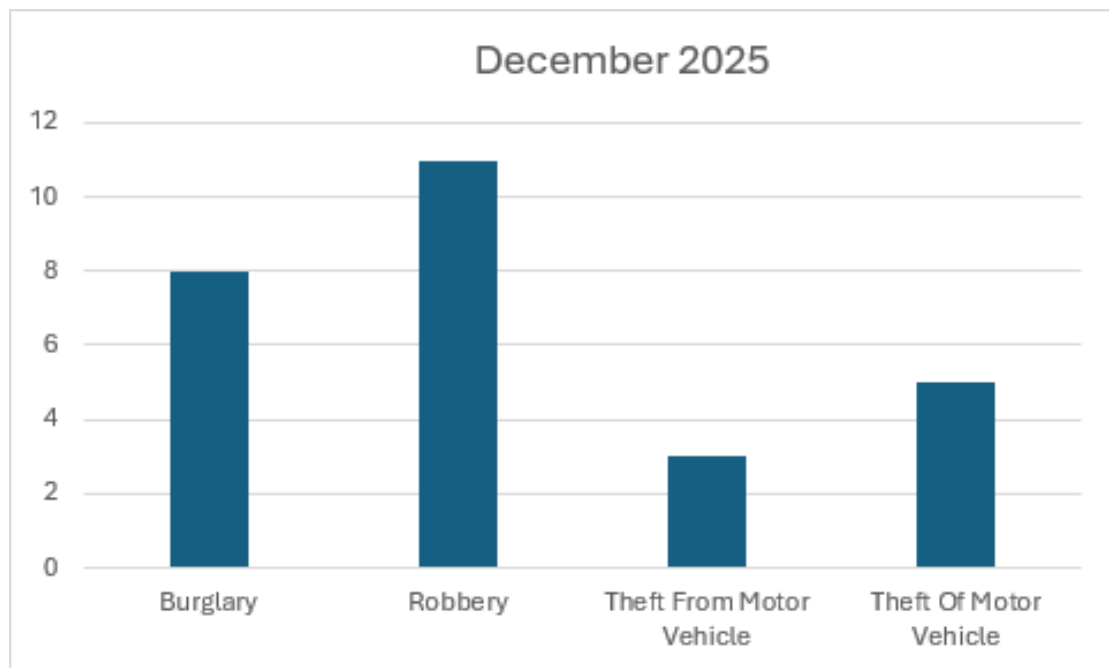

All that's left to say is a Happy New Year, everyone!

## Report on crime in Edmonton Green:

For December, we are looking at an unfortunate rise in reported robbery offences. However, we have also seen robbery suspects arrested and issued with preventative lawful conditions that should see an end to their offending.

There has been a slight rise in reported burglaries too, which was to be expected. We often see a rise in burglaries during the Christmas period due to the presents on display in people's homes. There is a plethora of crime prevention strategies you can utilise, and these can be found on Met Engage and Secure By Design.

Theft From and Of Motor Vehicles offences are still in really stable conditions and this is how we aim to keep it going forward. These results are achieved through regular high-visibility patrols, which are now easier than ever to provide with our bolstered team strengths. The Edmonton Green team is now looking stronger than ever with four (4) Police Constables and four (4) Police Community Support Officers.

## Met Engage

Summer saw the rollout of Met Engage, the new outreach system for the Met. This is a free-to-use website, which allows you to receive updates from your local ward team via email, once you have completed a two minute survey upon creating your account. I encourage all residents and businesses of Edmonton Green ward to sign up to Met Engage, as it really is a wonderful new tool.

## Ward Panel Meeting

This month's Ward Panel meeting is being hosted at the Youth and Community Connexions centre (34 The Market Square, N9) on Wednesday 21st January 2026 at 5pm.

These meetings are crucial for community collaboration, which greatly benefits problem-solving on the ward, and I would strongly recommend any interested parties attending the next meeting and becoming an official member.

Your local police team attends these meetings, so it is a fantastic place to raise any concerns you have regarding crime and anti-social behaviour.

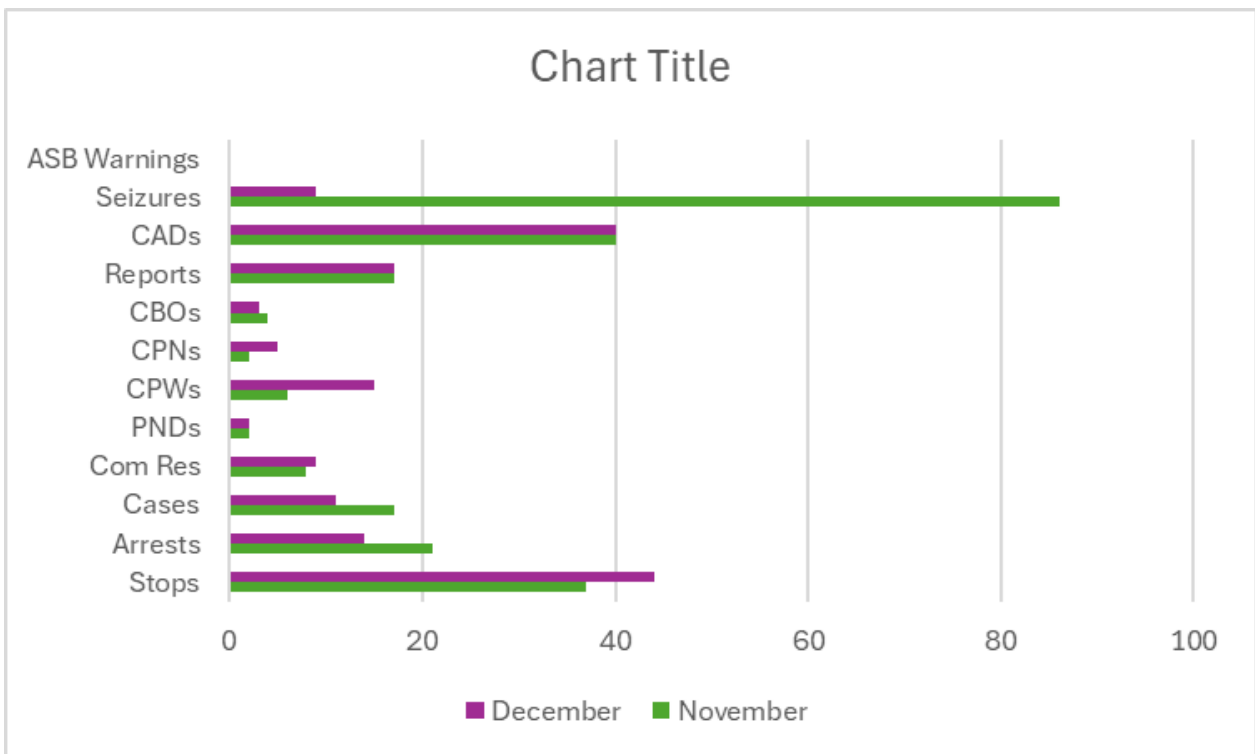

### Operation Silky

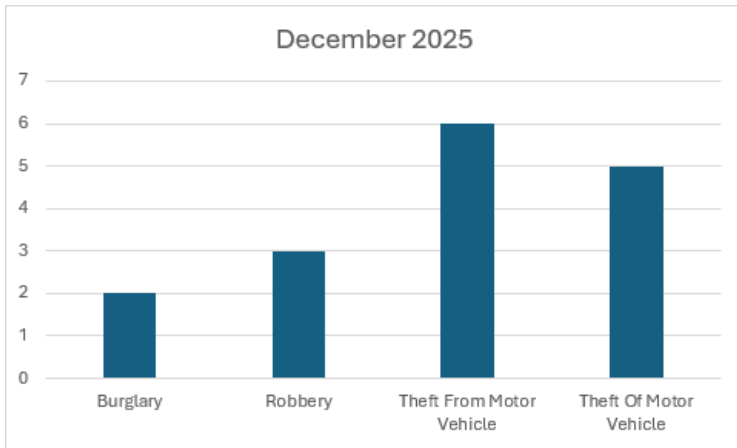

From December 18th to the 24th, we flooded the Edmonton Green Shopping Centre with police constables in plain clothes and placed a PCSO in the CCTV control room to allow for immediate responses to any and all incidents.

It was a very successful week, which saw 14 arrests and 15 Community Protection Warning and Notices issued. We have seen a 60% reduction in reported shoplifting offences across Enfield, which is a huge step in the right direction.

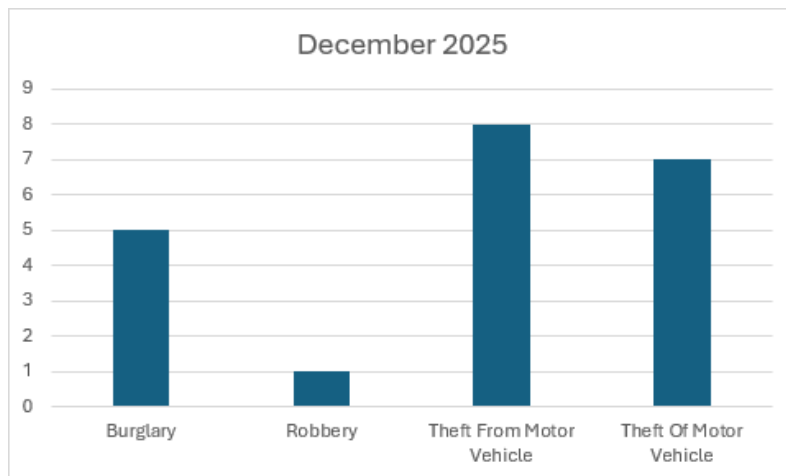

Ultimately, staff and shoppers were safe this Christmas.
