Alcester Police SNTs. Latest Weekly Report. Sunday 7th June 2026

Based at Alcester Police Station, The Safer Neighbourhood team's primary roles are around crime prevention, problem solving both long standing or emerging issues of community concern and community engagement. We are supported at Alcester by colleagues from Patrol teams whose role is to respond to incidents and investigate crimes that occur in the area 24/7. The SNT is supervised by Inspector Jake Kibblewhite who leads on Neighbourhood Policing for Stratford District and Sgt Ebbs who also oversees neighbourhood Policing in the Shipston on Stour area. The Alcester SNT currently consists of Police officers and Police Community Support Officers, and our contact details are shown above.

Hello all.

This is our latest combined weekly report and prompt to see if you have any questions, suggestions or concerns for the Alcester Police Safer Neighbourhood Teams. Thank you to those that have contacted the Teams this week. If you would like to be removed from this local email circulation list, please let me know asap. This report will also be sent out on the Warwickshire Connected alert system.

For operational and privacy reasons not all the incidents that occur on the Alcester area are listed in this report, although they are recorded on police systems. Please remember to report any anti-social behaviour, suspicious activity or crimes to us as soon as possible - this can be done via the 101 and 999 telephone numbers or if not an emergency via our online reporting forms that can be found on our website. If you have any information or cctv footage that may relate to the incidents listed, please contact us.

Protect your mobile phone against criminals on bikes and mopeds.

Criminals often use bikes and mopeds to snatch mobile phones from people, particularly at busy locations such as outside stations, shopping centres or concert venues. Often victims are approached from behind while talking or texting on phones. Criminals on mopeds or bicycles may mount the pavement to grab the phone or snatch it from the road. Sometimes when it's a moped, a pillion passenger will snatch it.

While most thefts happen between six and ten at night, criminals operate during the day too, so always look out for what's going on around you. Follow these simple steps to help protect your phone.

Be aware of your surroundings.

- If you need to call or use your phone on the street, look out for anyone on a bike or a moped near you. Look up, look out.
- Make it quick so you don't become distracted.
- Don't text while you're walking – you won't notice what's going on around you.
- If that's not possible, stand away from the roadside, close to a building or wall, so no one can come up behind you.
- Going hands-free can prevent a thief from snatching your phone out of your hand.

Use security features on your phone.

- You must switch on your phone's security features to protect your phone.
- Use the keypad lock so that thieves cannot immediately access your phone, or use the biometric authentication if your phone has it (fingerprint or facial recognition)
- Your phone may have other security features you can use – these could allow you to wipe data, lock your handset, or prevent a thief from restoring a phone to its factory settings from another internet device.
- Consider installing an anti-theft app. These can be an effective way of helping police trace your phone and identify the thief.

Know how to identify your phone if it's stolen.

- Every phone has an IMEI number which helps police and insurance companies to identify it if it's stolen. UK network operators can also stop a stolen phone from working across their networks with its IMEI.
- Find your IMEI number by dialling *#06# from your phone and keep a written note of it; if the phone is stolen, report the number to your mobile provider to stop it being used.
- Register your valuables on an accredited property database.

Remember, never confront a thief or risk your own safety for the sake of your mobile phone.
