

STAY WARM SAVE MONEY

Your **FREE** guide to cutting costs and staying warm

Quick fixes for lower bills

Small changes can make a big difference to your comfort and your pocket.

-  **Thermostat too high?** Turning it down by 1°C could cut heating costs by up to 10%.
-  **Long showers?** Reducing from 15 minutes to 4 saves water and heating.
-  **Hot water tank uncovered?** A cylinder jacket keeps water hot for longer.
-  **Cold draughts?** Draught-proof windows, doors and floorboards to stay warmer.
-  **Boiler set too high?** Lowering the flow temperature to 60°C makes it run more efficiently.

Why saving energy matters

Saving energy at home helps keep your living space warmer, healthier, and more comfortable while reducing the impact of rising energy prices.

It can improve:

- ✓ **Your bills** - spend less on heating and electricity
- ✓ **Your comfort** - keep your home warmer for longer
- ✓ **Your health** - avoid cold, damp and condensation
- ✓ **Your peace of mind** - more control over rising costs

Where does the heat go?

Knowing where heat escapes in your home helps you take action to stop it.

- ▶ Insulating walls keeps the warmth in.
- ▶ Loft insulation stops heat rising and escaping.
- ▶ Floor coverings and insulation reduce draughts.
- ▶ Draught-proofing keeps cold air out.
- ▶ Curtains or double glazing keep heat inside.

HEAT Plus

HEAT Plus is a free, funded service for Surrey residents who are vulnerable and need further support. We can offer:

- ✓ **A further visit** to give more time and support
- ✓ **Free energy-saving items** - LED bulbs, air fryers, heated racks, blankets & more.
- ✓ **Guidance** on how to reduce damp and mould and a free dehumidifier if needed.
- ✓ **Help** applying for grants and energy schemes
- ✓ **Support** to get energy debt reduced.

Home Energy Advice Team (HEAT)

Our trained, friendly Energy Champions will visit your home and give you tailored, trusted advice to help you save money on your energy bills.

- ✓ **Free thermal imaging survey** to show where your home is losing heat
- ✓ **Free measures to cut heat loss** - draught proofing, chimney balloons, radiator foil & more.
- ✓ **Advice** on ways to cut your energy use.
- ✓ **Details of any grants** you may be eligible for for larger insulation works.
