

### **PCSO Monthly Ward update**

Welcome to Coldean & Stanmer ward update for June.

#### **Ward update**

This month we are still very aware of the motor bikes and E-bikes that are driving anti socially. At this current line we are very aware of this situation and are starting to look at working with other parts of Sussex police and hopefully get something up and running to try and stop that. With it starting to become summer the weather is starting to slowly get better and if I do see anyone on my patrols then make sure to come over and have a chat. If you do spot any suspicious activity with anyone whilst out and about make sure that you do report it to either 101 or 999, to make both of the ward PCSOs aware of any issues in the area.

#### **Ward patrols**

During June both of us PCSOs conducted our standard patrols around the ward area throughout the month. If you do see either PCSO Daubeney or PCSO Falconer, then make sure that you come over and have a chat and we will give our best advice for whatever you may need support with.

This month with the weather getting better and Stanmer Park getting busier, make sure that you are all being safe and keeping hydrated. Please make sure that all younger or vulnerable people are being safe and making sure that you are all topping up the sun cream.

If you do see any motorbikes or any suspicious activity, make sure that you keep on reporting and we will make sure that we can do our best to help with anything you do call about.
