STAND:UP VR

SAFEGUARDING TRAINING AND AWARENESS
THROUGH A NEW DIMENSION

Safer Business Network is excited to launch STAND:UP VR –

"Together, we can be allies and take a stand to end Violence Against Women and Girls." Launching as part of 16 Days of Activism and Spiking Intensification Week, we are thrilled to launch something truly game-changing for the safety of those who live, work, or socialise in the day and night-time economy.

STAND:UP VR is for everyone who wants to make a difference. This is the first-of-its-kind immersive VR training tool to tackle VAWG.

Unlike traditional training, STAND:UP VR is about feeling the moment, making a choice, and walking away with practical skills that can make a real difference.

Users will experience:

- Spotting vulnerability
- Identifying a spiking situation
- Upstander Intervention
- Using Ask for Angela
- Knowing how to report to police or security
- And most importantly, understanding what to do if they themselves become vulnerable

This training compliments:
