West Mercia

“ Independence is absolutely vital for me. I have to feel that if I need to, then I can get in the car and go anywhere I want to. It's nice to get a second opinion of my driving skills, for reassurance that I'm doing everything I should be doing while I'm driving. ”

Barbara, Mature Driver

We know just how important driving is, and how it represents the freedom to go anywhere, anytime. This is why many mature drivers choose our course, because it gives them the confidence and skills to carry on driving and maintain their independence.

How can we help?

If you're concerned your reactions aren't as fast as they used to be, or that your driving ability has deteriorated over time, our Mature Driver Review offers a trusted, impartial second opinion to help put your mind at rest.

It can also be useful if you haven't driven for a while, or if you are taking over the driving duties from your partner.

It can offer you and your family reassurance prior to renewing your driving licence at 70.

Friendly expert service

One of our friendly, qualified experts will go out with you, in your own car on familiar roads local to you, at a time to suit you.

They will assess your driving style for one hour and watch out for any areas where your skills could do with sharpening.

It's an informal session – you can even bring a friend along – and is aimed simply at helping you to be a better driver.

Boost your confidence

After the review, you will receive feedback on your skills and a written account of the session, which includes any suggestions for improvement. It's a completely personal report, shared with no one else.

Those who have completed one of our Mature Driver Reviews tell us that having an expert to assess their driving skills gives them renewed confidence at the wheel and a real sense of achievement.

Honest, practical advice and support from the UK's leading road safety charity

The Mature Driver Review, worth £86.50, is **only £20** for West Mercia* residents
