

Safer Neighbourhood Newsletter.

Welcome to July newsletter.

It's that time of year where some of us may be off on our holidays. Please ensure you secure your properties before you leave them. alarms are set and garages locked. If you have a spare car it may help to keep it parked on the driveway, so it looks like a resident is home. Also, it may be a good idea to ask a relative or neighbour to pop round to check everything is all ok and to pick the post up from the porch so to minimize clues to burglars that you are not home. If you have timer light switches these can also be good and give the impression someone maybe in. A house in complete darkness may be very appealing and tempting to a burglar as it could indicate to them that no one is home.

3 STEP PROTECT

Valuables

Building

Outside

Securing your outside

Securing the outside of your property not only keeps valuables safe in your shed or garage, but is often the first line of defence against burglars trying to enter through the back of your home.

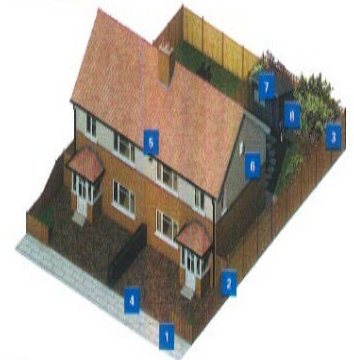

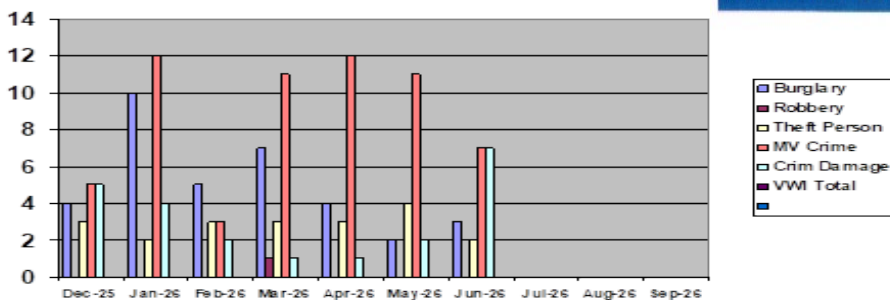

Recommendations to make your home more secure

- 1 Low front boundary
- 2 Secure side gate
- 3 High side and rear boundaries with trellis and spiky defensive planting
- 4 Gravel driveway and path
- 5 Security light
- 6 Intruder alarm system
- 7 Secure shed door and window
- 8 Never leave tools lying around

Stay secure in summer

Leaving ground floor windows, doors and patio doors open in the summer can give burglars the perfect opportunity. If you're upstairs or out of the room, even just for a few minutes, close them and help shut burglars out.
