How to avoid becoming a victim of vehicle theft

- Use an additional external lock and consider investing in physical deterrents such as steering wheel and pedal locks or clamps.
- Consider installing a tracking device. It won't stop your van from being stolen, but it can significantly increase the chances of the vehicle being located and returned to you.
- Remove expensive tools, equipment and valuables from your van.
- If possible, park in a secure, well-lit or highly-visible area. A driveway or garage are the best options.
