What is StreetSafe?

As part of the government's agenda to tackle violence against women and girls, we are using a new online tool called StreetSafe to enable people, particularly women and girls, to report locations where they feel or have felt unsafe and to identify the features on why that location made them feel unsafe.

The focus of this is to identify particular areas and factors that lead to people feeling unsafe and might help offenders either commit or conceal a crime – such as street lighting, abandoned buildings or poorly designed spaces, vandalism, as well as behaviours of individuals or groups of people.

StreetSafe is anonymous StreetSafe | Police.uk (www.police.uk)

Suspect charged as vehicle crime crackdown continues in Deal

A suspect has been promptly charged by Dover officers as the clampdown on vehicle crime across the district continues.

Between Wednesday 15 and Sunday 19 July 226, Kent Police received reports that vehicles had been tampered with in Diana Gardens, Mongeham Road and Glack Road, Deal. Enquiries were completed by officers and an arrest was made on Tuesday 21 July.

Charges secured

The following day, vehicle interference charges were secured against Mitchell Gent, 28, of Freemens Way, Deal.

Mr Gent appeared before Folkestone magistrates and was bailed with conditions to a hearing at Canterbury Crown Court on Friday 14 August.

Enforcement tactics

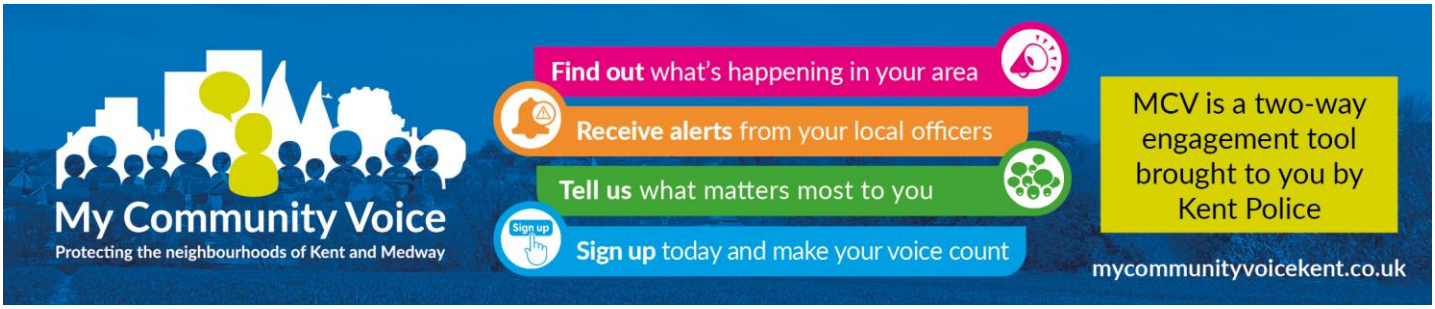

Measures being taken in response to reports of vehicle crime in Dover district have included increased, high-visibility patrols in target areas and proactive vehicle stops.

Dover District Commander, Chief Inspector Liz Cokayne-Delves, said:

'We understand the concern and frustration that vehicle crime causes for victims and the wider community. We want residents across Dover district to be reassured that we are committed to tackling this issue, and my officers are using a range of enforcement tactics.'I would also urge anyone who witnesses suspicious activity, or has information about offending, to report it to us promptly. My officers will always pursue the most robust options available to them, including prosecution where appropriate.'

Jail for Deal sex offender who targeted children online

A sex offender from Deal who made and shared indecent images of children has been jailed. **Christopher Chapman**, 46, formerly of Orchard Avenue, pleaded guilty to multiple offences before Canterbury Crown Court.

His crimes came to the attention of Kent Police in February 2026 as part of enquiries carried out into online child sex offences.

An investigation by specialist detectives from the force - which included the examination of digital forensic evidence - established that the offender had shared indecent images of children via a messaging app. Chapman was arrested on 27 February at an address in Deal, where officers also seized knives and a sword. He was later charged.

He admitted his guilt and **was sentenced at the same court on Thursday 12 November to 4 years' imprisonment**. The sentence incorporated an offence of arranging and facilitating the commission of a child sex offence, in relation to a separate case.

Investigating officer, Detective Constable Claire Hall, said: 'Chapman's offending involved the exploitation of children from behind a screen, but the online world is not a place where offenders can act with impunity. Our specialist investigators are relentless in pursuing those who create, share or facilitate the abuse of children, using digital forensic evidence and intelligence to identify those responsible and bring them before the courts.' We know some offenders believe technology can conceal their crimes, but this case demonstrates that we will use every tool available to uncover the evidence, expose their offending and ensure they are brought to justice. Protecting children from harm remains one of our highest priorities, and we will continue to target those who seek to exploit them online.'

Due to the Surveys that are broadcasted on My Community Voice your priorities are generated to assist us in working out what matters to you.

I will be out enforcing and actioning anything relating to these as a priority.

- Vehicle crime

I will be out in the ward, in suitable or hotspot location carrying out enforcement. Enforcement comes in many ways but could come as random spot checks, speed checks, and enforcement of the road traffic act for matters such as phones, seatbelts and insurances.
I have and will hold **Street briefings** if Crime series are identified for safeguarding and reporting.

- Drug dealing and Drug use

I and other police are out and about within the Middle deal ward and others eitherin police uniform and undercover trying to sort this issue. The war on drugs is an endless battle, howevr still being fought. I am oftern in this ward weaing plain clohtes and using effective stop search powers to ensure drugs are conviscated and prosecutions sought. Further to this plans will be made to ensure concentrated targeting takes place.

- Road Safety issues

I will be out in the ward, in suitable or hotspot location carrying out enforcement. Enforcement comes in many ways but could come as random spot checks, speed checks, and enforcement of the road traffic act for matters such as phones, seatbelts and insurances.

As always, every 3 months good results on these priorities will be published on Kent police website under 'your area' and highlighted on these newsletters
www.kent.police.uk/yourarea

If you know anything that can help me help you – Please get in touch.

Electric Scooters – know the law

If seen in Deal on an E-scooter – expect to be stopped, and the article seized and potentially prosecuted with 6 points on a driving licence and a £100-300 fine.

Although e-scooters can be great fun, it's **against the law** to ride one on a public road, cycle lane or pavement. Please share this information with friends and family.

E-scooters are classed as Personal Light Electric Vehicles (PLEVs), which means they are treated as motor vehicles and subject to the same legal requirements, such as driving licence, insurance, number plates, lighting, road tax, crash helmets etc. **Without these, e-scooters cannot be used legally on the road.**

The Government is currently trialling the use of approved rental e-scooters as environmentally friendly modes of transport in some specific locations in the UK.

For the rest of the country, under current law, e-scooters can only be used on private land with the landowner's permission.

We are obliged to take action against anyone who is caught repeatedly using an e-scooter illegally or in a way that causes a nuisance to others. In these circumstances we have the power to seize the e-scooter under Section 59 of the Police Reform Act/165 of the Road Traffic Act – and we'd really prefer not to.

For more information about powered transporters and the law, visit www.gov.uk
