West Midlands Police Business Crime Survey

West Midlands Police would like to better understand the experiences of small business owners across the West Midlands. We know that crime and antisocial behaviour can have a significant impact on businesses, and your feedback will help us better understand these challenges and improve the support we provide.

This anonymous survey asks about incidents affecting your business during the past 12 months. Your responses will help shape future policing activity, crime prevention initiatives, and business support.

At the end of the survey, you'll have the opportunity to register your interest to attend a business crime workshop in the new year with West Midlands Police and other local business owners to discuss the findings of this survey and explore potential solutions.

Scan the QR code to take the survey or search 'WMP Business Crime Survey' to participate.

West Midlands Police is working to identify and disrupt unlawful trading on local high streets. We recognise that illegitimate businesses can have a big impact on legitimate traders.

To support trusted local businesses, we are exploring the introduction of free police led accreditation scheme that will highlight the honesty, safety, and reputation of your business.

On completion of this survey, you will be taken to an expression of interest form where you can sign up the upcoming business crime workshop and register your interest in the accreditation scheme.

West Midlands Police are here for you. Always call us on 999 if you are ever in a life threatening, in an emergency, or witness a crime taking place now.

To report shop theft, antisocial behaviour or an incident that has already happened, talk to us online or call us on 101.

Warm regards,
West Midlands Business Crime team and your local police team
