Know When to Call the Police!

The police are here to help keep everyone safe!
But we must use their help the right way.

In an emergency:

Call 999 🚨
👉 If someone is in danger
👉 If you see a crime happening
👉 If there's a fire or accident
⚠️ Only call 999 if it's a real emergency!

Be ready to tell the police:
✅ What happened
✅ Where it happened
✅ Who was involved
✅ Your name and age

For non-emergencies:

Call 101
👉 If something has already happened (like a stolen bike)
👉 If you want to tell the police something important but it's not urgent. Try telling a trusted adult / teacher first if it's not an emergency.

REMEMBER:
📵 Don't prank call the police — it can stop them from helping someone who really needs it and it is a crime!

Remember:
Be Smart. Be Safe. Be Kind.
Only call when you really need help!
